Sales of Lead and Zinc activities fell sharply during the fourth quarter of 2008 compared to the same period in 2007 due to the continuation of the downward correction of metal prices. During the year 2008, average lead and zinc prices expressed in euro went down respectively by 25% and 47% compared to the previous year. As a result, consolidated net sales for the year 2008 decreased by 28% compared to the previous year.

On the other hand, sales of the Special metals activity increased by 16% in 2008 compared to the year 2007, benefiting from the successful launch of RMO's plant (Reinstmetalle Osterwieck GmbH), specialized in arsenic tetrachloride.

Plastics activity remained at the same level as in 2007.
