

RECYLEX AND C2P ARE TAKING PART IN THE FRENCH 2019 INDUSTRY WEEK

Suresnes, February 27th 2019: [Recylex S.A.](#), major European player in lead recycling and [C2P S.A.S.](#), French specialist in recycled polypropylene compounds, are taking part in the “Industry Week” in France, for a fifth consecutive year.

The French plants in [Villefranche-sur-Saône](#) (Auvergne-Rhône-Alpes region) and in [Escaudœuvres](#) (Hauts de France region) will open their doors to high-school students as well as to young people in professional integration. Visitors will be able to find out from the Group’s employees about the circular economy know-hows linked to the lead and polypropylene recycling processes.

Gabriel Zeitlin, Director of communication of the Recylex Group, commented:

“For the fifth time in a row, we are very pleased to open our doors within the Industry Week. This gives us the chance to show how the circular economy works on a daily basis and also to explain how one comes to work in this industry. We hope to make a contribution to developing responsible citizenship and inspire new vocations in the French waste recycling sector.”

Raw materials from urban mines

The Recylex Group, based in France and Germany, is a European specialist in the recycling of lead, zinc, polypropylene and in the production of high-purity special metals. As a key player in the circular economy and thanks to its long-standing know-how, Recylex achieved consolidated sales of € 365 million in 2018 and employs more than 730 employees.
