

# Emergency Policy

## In event of emergency

Remain calm. Notify a First-Aid Worker on site, otherwise dial:

- 03 27 72 70 70 10 (internal number)
- 112 or 18 if necessary (dial 0112 or 018 from landline)

## Evacuation

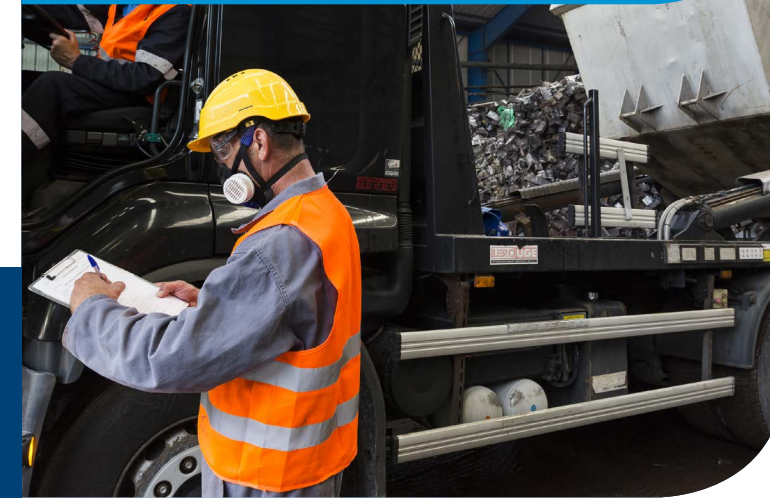

Discontinuous audible signal:

- Keep calm.
- Take the emergency exits and go to the Emergency Evacuation Meeting Area (meadow in front of the tipping zone).

## General Safety and Environmental Rules

## Welcome to the site

RCX Escaudoevres is an integrated site for the collection and treatment of used lead batteries. A key player in the circular economy, Recylex recycles waste from urban mines. The site is classified Seveso high threshold (since 2016) and is certified ISO 14001:2015. As such, safety, environmental and health protection for everyone are part of our responsible commitment. For this reason, we ask you to respect the safety instructions applicable on site that you will find in this guide.

### Reception Desk Opening Hours:

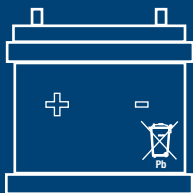

- 8:00 - 12:00 a.m.
- 1:00 - 4:00 p.m.

## General Safety Instructions

- As part of our Seveso status, the site is fenced-in and monitored.
- Access to the site is restricted to authorized persons only. Upon request and after validation, personal badges allow access to the site.
- Vehicle entry to the site is subject to registration at the reception.
- Wearing a protective helmet is mandatory as soon as you pass by the weigh bridge or turnstiles station, except in marked areas.

- Wearing Personal Protective Equipment (PPE) is mandatory.

## General Safety Instructions

- Speed limited to 7km/h. Comply with the road safety rules.
- It is forbidden to use forklifts or other machines without authorization.
- Be aware of pedestrians throughout the site.
- Use pedestrian crossings where they exist.
- Pay attention to machine maneuvering and truck traffic.
- Hold the handrail on stairs.

## Hygiene Policy

- Obligation to wash hands and face before eating, drinking or smoking (risks related to the presence of heavy metals).

- In order to limit the dispersion of lead on site, make sure to wash your boots and soles on the equipment intended for this purpose. Use overshoes to get into the offices.

## Hygiene Policy

- Showering is mandatory after the shift or during the shift, if necessary, for production and maintenance workers.

## Waste Sorting Instructions

- Sorting of waste according to its nature (in case of doubt ask your contact)

- Paper / Cardboard / Bottles / Cans = yellow bin

- Dirty PPE (mask, blouse, gloves, earplugs, hygiene cap, overshoes) = red bin
